# Erin Clark

Erin Clark is a Senior Associate at Cityfi and based out of Pittsburgh, PA. An attorney by training with professional experience in state and local government, Erin seeks to build more sustainable, nimble, and human-centered cities through policy frameworks that empower cities to utilize technology to solve real problems.

Prior to joining Cityfi, Erin served as Policy Analyst at the City of Pittsburgh Department of Mobility & Infrastructure. In this role, she was the Department's policy lead on subject areas including autonomous vehicles, curb management, and Covid-19 response. Prior to her time at the City of Pittsburgh, she served as Deputy Counsel for the New Jersey Office of Legislative Services where she conducted legal research, provided analysis, and drafted legislation on transportation and economic development issues and policy matters.

## EDUCATION

West Virginia University, JD

## RECOGNITION

CALI Awards in Lawyers and Legislation, Employment Discrimination, and Election Law  
Moot Court - Jeffrey G. Miller National Environmental Law Moot Court Competition participant  
F. Paul & Thomas N. Chambers Endowed Law Scholarship

## Select Experience

### KNIGHT FOUNDATION AUTONOMOUS VEHICLE INITIATIVE

Erin worked on behalf of the City of Pittsburgh with the Knight Foundation and the cities of Detroit, San Jose and Miami to project manage a five-year grant-funded initiative that seeks to increase equitable community outcomes through effective community engagement and the development and deployment of AV and new mobility pilots projects.

### SMART LOADING ZONE PILOT

Erin worked with Automotus to plan and execute a one-year smart loading zone pilot aiming to analyze real-time curbside activity, automate payment by the minute for the time a vehicle spends at the curb, and share real-time parking availability data with drivers via open APIs for 20 loading zones.

### COVID-19 RESPONSE OUTDOOR DINING AND RETAIL PROGRAM

Erin led efforts to rapidly re-imagine public space and create an efficient and customer-driven method of permitting outdoor dining and retail locations in the city during the Covid-19 pandemic. She worked with business owners to assist through permitting process and procuring barriers and other materials to create outdoor dining and retail space.
