
Ryan Parzick

Living in Austin, TX, Ryan brings a wide variety of skills and experiences to the Cityfi team. With a B.S. in Civil & Environmental Engineering from Carnegie Mellon University and a Master's of City & Regional Planning from the University of North Carolina - Chapel Hill, he has the training and education to problem-solve some of our cities' most pressing issues. Professionally, he cultivated his entrepreneurial spirit by overseeing and facilitating consistent double-digit growth as the founder, owner, and operator of a local business for over seven years. Leveraging his quantitative and management proficiencies, Ryan also directed the market research department at a full-service commercial real estate firm where he produced creative and insightful deliverables for internal and external use. Additionally, he has a background in large-scale project management with a general contractor of new commercial office building construction.

Ryan has a passion for making cities more livable, equitable, and efficient. He has experience in green building construction techniques as well as the design/implementation of environmentally and socially sustainable business practices.
